

QUARANTINE POD

The Quarantine Pod is a calming space, focused on the mental and physical well-being of the occupant. The twin bed features drawers underneath for clothing storage, and faces a TV for entertainment. A small kitchen provides a space for snacks and drinks. The attached desk can be used for working, Facetime with family, or enjoying meals. Open shelving provides quick access, easy cleaning, and gives the room more breathing space. The bathroom is small but well equipped, with easy to clean marble tile. The entryway provides a space to leave, or pick up items with a flip-down table perfect for putting a food tray on. When the doors are closed, UV lights can be activated to sanitize the contents ensuring that germs never leave the pod.
