

## An aerial view of a modern A-frame cabin nestled in a snowy forest. The cabin features a dark blue, corrugated metal roof and a wide wooden deck with a glass railing. A large, illuminated window on the right side reveals the interior, which includes a kitchenette, a living area with a fireplace, and a bedroom. A small, circular hot tub is situated on the deck. The cabin is surrounded by snow-covered evergreen trees and a small, circular, green, textured object is visible in the foreground.
